Enthusiastic data scientist with 3+ years of experience, adept at unearthing actionable insights from intricate data landscapes. My passion lies in harnessing the power of machine learning, data analysis, and compelling visualizations (Python, R, SQL) to develop high-impact solutions that drive business decisions. Particularly excited about the transformative potential of cloud computing, especially AWS, to democratize data access and scale AI initiatives. Thriving in fast-paced environments, I seek a Data Science leadership role where I can spearhead innovative projects, mentor junior data enthusiasts, and empower organizations to leverage the power of data for their competitive advantage.

Experience

Machine Learning and Computer Vision Support Engineer

Global Technologies Solutions, Remote

Feb 2023 - Apr 2023

I collaborated with a team on a Machine Learning-Computer Vision Project remotely. My primary role was handling the data inputs for training the model.

Data Analyst Intern

Jomo Kenyatta University of Agriculture and Technology, Nairobi, Kenya

Jun 2023 - Aug 2023

I worked on an Exploratory Data Analysis Project at school on supervision.

Education

Jomo Kenyatta University of Agriculture and Technology

Bachelor's, Data Science

Sep 2021 - Present

Udemy

Bootcamp, Full Stack Web Development

Aug 2023 - Present

ALX

Certificate, AWS Cloud Practitioner

Sep 2023 - Present
